The Prodigy Three (P3) Championship, the first of three planned real-world series within the Prodigy Racing League™ (PRL™), kicks off its fourth race event at Atlanta Motorsports Park.

Running November 2024 to March 2025, the 10-Round Championship showcases drivers from 15 countries proving their mettle in Radical SR1 race cars at premier tracks across the United States. With 30 drivers competing in six four-car teams and a six-member practice squad, the P3 Championship is where dreams turn into reality, bringing PRL's e2Real™ pathway to life and showcasing Racing Prodigy's mission to open motorsports to all.

Every race in the P3 Championship carries high stakes, as drivers battle not just for victory but to secure their future in the PRL. Fans will witness racers' triumphs and setbacks, as they fight to secure one of 20 spots in next year's Prodigy Two (P2) Championship and define their legacy in the world of motorsport.

BS+COMPETITION PRODIGY RACING TEAM

Since its inception in 2020, BS+COMPETITION has become a force in sim racing, known for its unique zebra livery and skilled drivers. Blending real-world motorsport expertise with innovative virtual racing approaches, the team has achieved victories and titles on various platforms.

Expanding beyond sim racing, BS+COMPETITION competes in games like Rocket League and Trackmania.

With the zebra as its symbol and a fan community called "The Herd," BS+COMPETITION aims to bring its unique storytelling into the esports landscape, merging fierce competition with a vibrant community spirit.

(PRONOUNCED "FLOH-ree-ahn HAH-sper")

Florian Haasper, a trained motorsport journalist, has built a reputation for innovation and leadership in racing. In 2012, he founded bürosüd plus, excelling in sports marketing and media. By 2020, he became CEO of BS+COMPETITION, creating one of the most dynamic teams in sim racing and hybrid motorsport. Inspired by motorsport legends like Charly Lamm, Haasper fosters a culture of dedication and team spirit. Educated in Hamburg and Aberdeen, he brings a global outlook, balancing his professional achievements with his role as a father of three. Under his leadership, BS+COMPETITION bridges real and virtual racing, pushing the boundaries of motorsport innovation.

(PRONOUNCED "RAH-bee FOH-lee")

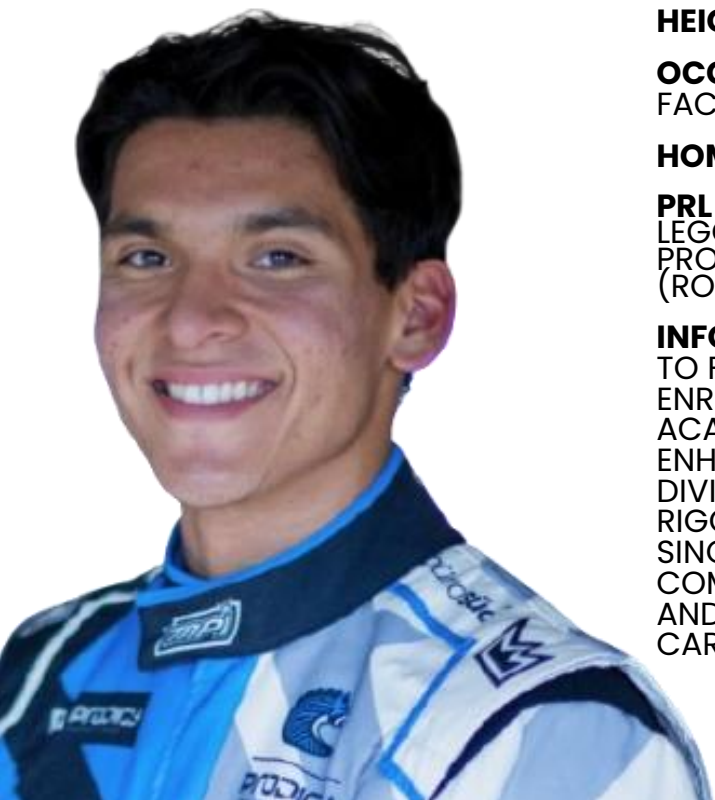

Robby Foley, a BMW M works driver, began his career in sports as a football and baseball player before transitioning to racing after an injury. He trained at Skip Barber Racing School, earning his SCCA Pro Racing license at 16. Foley won his first championship in 2015 with the Skip Barber MAZDASPEED Pro title. In 2018, he joined Turner Motorsport and, in 2019, claimed his first wins in the IMSA WeatherTech SportsCar Championship with Bill Auberlen. Foley's success continued, securing multiple podiums, a 2020 SRO GT4 America Championship, and two IMSA Michelin Pilot Challenge wins in 2023. Additionally, Foley won the 2023 IMSA Michelin Pilot Challenge GS Championship and most recently the 2023 SRO GTWCA Pro-am Championship. He has also been a vital part of the BS+COMPETITION lineup in sim racing. He studies mechanical engineering at Auburn University.

WILLIAMS
ESPORTS

Ben has over a decade of experience in leadership and coaching, spanning professional sports, education, and wellbeing. His journey began on the rugby and football fields, where a fascination with how top athletes reach peak performance led him to study Psychology and Sports Science. This academic foundation fueled his passion for human performance and inspired his transition from athlete to coach. Ben has since held impactful roles in education leadership and professional football, applying a values-driven, holistic philosophy to cultivate high-performance cultures.

Currently in a key role with Williams, Ben works with some of the world's top sim racers and promising young IRL drivers, from European Karting Champions to the F1 Academy stars. His focus is on developing talent and driving sustained success, committed to raising the bar in motorsport and fostering the next generation of elite competitors.

Began Volunteering with Williams Esports in December 2021. Took a full-time role with Williams as Chief Engineer in December 2022. Career highlights would be taking multiple race wins in ESL R1 with Daire McCormack, Nikodem Wisniewski and Dominik Blajer. Also secured a rookie win in FRECA at Monza in 2023 with Noah Stromsted. Other notable achievements: 2022 Williams Autosport Engineer of the Future. Finished 3rd overall in the 2022 British Universities Karting Championship.

(PRONOUNCED "STEE-vuhn ING-glish")

Steven, a former motorsport journalist, joined Williams in 2014 to lead the F1 team's creative marketing arm. Developing the brand's fan engagement strategy through content and social led to the formation of Williams Esports in 2018, to reach new audiences and to use gaming and racing sims to make F1 accessible. He built a high-performance sporting environment, while growing opportunities for people to experience simulators and showcase their driving talents, so partnership with Racing Prodigy and participation in the PRL was a natural evolution for Steven and Williams.

PRACTICE SQUAD

PRODIGY THREE PRACTICE SQUAD

Six Prodigy Week drivers went undrafted in July 2024, but were saved by fan vote to enter the P3 Championship on the practice squad, giving them one more opportunity to chase their dreams. During each P3 race event, the Practice Squad competes on track in hopes to be called up by one of the six race teams, which would require the team to drop a rostered driver. But the clock is not on their side of the Practice Squad drivers. At each race event, they compete in a Knockout Race that sends one racer home. After three race events, three practice squad drivers remain.

PRODIGY RACING LEAGUE / P3: KEY MESSAGING

Overall Key Messaging:

- Racing Prodigy™ is the creator of the world's first e2Real™ sports league, utilizing gaming competitions to discover racing talent and developing them into real-world drivers, democratizing motorsports.
- Its mission is to make motorsports more accessible by reducing the financial barriers to pursue a career in motorsports and leveling the playing field, enabling millions to pursue their dreams.
- The Prodigy Three (P3) Championship, the first-of-three real-world series within the Prodigy Racing League™ (PRL™), competes in Radical SR1 race cars November 2024 to March 2025 across a 10-Round Championship based in the United States.
- The inaugural drivers for P3 represent 30 drivers from 15 countries across six teams and a practice squad. The top 20 drivers from P3 will advance to the Prodigy Two (P2) Championship in 2025.
- Fans can easily track their favorite driver by the number on their car which represents their draft pick order during the two-day race events during P3.
- The P3 drivers earned their spots by winning in online PRL esports tournaments on platforms such as iRacing, RaceRoom, rFactor 2, and the mobile game Street Kart Racing, or by being selected by Prodigy Search Committees. They then competed at Atlanta Motorsports Park for Prodigy Week where they were tested in race cars, fitness and communication before being selected at the Prodigy Draft (or voted in as a practice squad driver) hosted inside the Williams Racing Fan Zone in London, England during the British Grand Prix in July 2024.
- PRL Season Two sim racing esports competitions are underway globally, giving more aspiring drivers the chance to test their skills and earn an opportunity to get behind the wheel of a real race car in Prodigy Week Season Two - summer 2025. Season Two sim racers are currently competing in online tournaments and Prodigy Passes have already been won at in-person events like Williams Racing Fan Zones and PRI and Autosport International shows.

P3 AMP KEY EVENTS

WEDNESDAY KEY EVENTS CONTINUED

Podium

- Top three (3) who most demonstrate exceptional performance in both on-track competition and team contributions are determined by PRL Committee of judges
- Rostered and Practice Squad drivers eligible
- Prodigy of the Event trophies awarded with champagne (1st, 2nd, 3rd)

Waiver Wire

- Team principals meet with coaches to determine if they will drop a rostered driver and sign a Practice Squad driver. If dropped from a team's roster, the driver is immediately added to the Practice Squad.
- If a team chooses to drop a driver and sign a driver from the Practice Squad, it places a claim. If two teams claim the same driver, the team higher in the waiver order gets the claim. Teams that make a successful claim move to the bottom of the order for the next waiver round.
- A second round of claims is conducted if needed, with unclaimed and waived drivers forming the new pool.
- Waiver wire order for Atlanta Motorsports Park Race Event #4 is based on Team Championship Standings (last-place team has first right to claim): (1) BS+COMPETITION, (2) SuckerPunch, (3) G2, (4) Williams Esports, (5) Guild, (6) TC.

Final Knockout Qualifying & Race

- Winner of the Practice Squad Knockout Race joins one released driver from each of the six teams (7 drivers total) for an 8-minute qualifying session, followed by a 20-minute race. The winner and judge save selection move on as the two (2) Practice Squad drivers in the 2026 Prodigy Two (P2) Championship.
